Professional Summary

Graduate Engineer Trainee at Coforge and full-stack developer specializing in React.js, FastAPI, and Java, with hands-on experience building and deploying e-commerce, AI-powered marketplace, and legal-automation platforms.

Technical Skills

Languages	Java, JavaScript, Python
Frontend	React.js, Tailwind CSS, HTML5, CSS3
Database	MySQL, MongoDB Atlas
Infrastructure	GitHub, Socket.io, Vercel, Render
Concepts	OOP, Data Structures & Algorithms, System Design Fundamentals
Data & ML (Python)	Pandas, Matplotlib, MediaPipe, OpenCV
Testing & CI/CD	Selenium, Cucumber, JMeter, Jenkins, Allure Report, Postman, Jira

Experience

Graduate Engineer Trainee — Coforge, Greater Noida June 2026 – Present

- Authored and maintained 120+ automated test scripts (Selenium, Cucumber/BDD) covering core application workflows, achieving a 95% test pass rate (allure report)
- Ran performance/load testing with JMeter across key API endpoints, identifying bottlenecks
- Integrated automated suites into Jenkins CI with Allure Report dashboards, and used Postman/Jira for API contract testing and sprint bug tracking, collaborating cross-functionally with developers to resolve issues pre-release

Freelance Web Developer — Health Plus Innovation Pvt. Ltd. Jan 2026 – Present

- Rebuilt pharmaceutical e-commerce platform (11+ pages) from legacy PHP to a modern React.js stack, deployed at hpi.co.in
- Improved technical SEO by optimizing page metadata, routing, and indexing configuration.
- Built REST APIs for orders backed by MongoDB Atlas, with Razorpay payment integration and JWT-based authentication
- Deployed on Vercel with a CI/CD pipeline and custom domain

Projects

SuvidhaAi - AI Powered Hyperlocal Service Marketplace [Live](#) [GitHub](#)

- Built a full-stack marketplace (React, MongoDB Atlas) now serving 100+ active users, connecting customers with nearby home service providers via geospatial queries and REST API
- Developed a FastAPI microservice for fake-review detection and a Random Forest demand-prediction model, achieving an 85% recommendation success rate
- Implemented real-time chat via Socket.io with a 93% delivery success rate, JWT authentication, and role-based access control across User, Provider, and Admin roles

UBlong - Autonomous Legal Navigator for Stateless Child Registration [Live](#) [GitHub](#)

- Built a full-stack AI agent platform (React, FastAPI), adopted by 2+ NGOs, that autonomously researches legal pathways, identifies missing documents, and drafts multilingual registration applications for stateless children
- Achieved an 82% application success rate through real-time case tracking and AI-driven rejection re-routing; implemented a role-based caseworker dashboard with Socket.io notifications and JWT authentication for NGO/UNHCR workflows

DemoWebShop - Selenium Test Automation Framework [GitHub](#)

- Independently architected a Java test automation framework (Selenium 4, TestNG, Cucumber/BDD) using Page Object Model, Page Factory, and a data-driven design with Apache POI/OpenCSV for Excel/CSV test data
- Authored 15+ automated test cases across login, registration, search, cart, and checkout flows, and ran JMeter performance testing achieving a 93% success rate; structured reporting via Allure and WebDriverManager — the foundation later applied professionally at Coforge

Education

GL Bajaj Institute of Technology and Management 2023 – 2027
B.Tech in Computer Science (AIML)

Rajni Public School — Class XII — 86% 2022 – 2023

Rajni Public School — Class X — 90% 2020 – 2021

Achievements & Certifications

- **Winner** at IIT Delhi Hackathon — Infronix'25
- **Top 10** at IIT Delhi Hackathon — CubeInnovators @Tryst'25
- **Top 10** at GGSIPU Delhi Hackathon — VesHack'25
- **Top 300** at Adobe National Hackathon
- **PR Lead** — Abhyudaya Club, GL Bajaj Institute (July 2025 – Present)
- Solved 300+ Data Structures and Algorithms problems on LeetCode
- Oracle Generative AI Certification
